
BRAND KIT / LOCAL PRINTER HANDOFF

ONE MARK. MANY USES.

THE MARK

Two F forms stand on a shared footing. The mark represents a foundation built through learning, craftsmanship, and church investment.

COLOR AND SPACING

Charcoal #242622, orange #F16A2B, warm paper #F3F1E9. Leave clear space of at least one footing thickness around the mark. Use ink or white artwork for one-color printing.

APPAREL

Use the chest lockup around 3.5 inches wide for a small chest print, or the back artwork around 10 inches wide. These are starting sizes; ask your printer to proof placement and line weight for the actual garment.

CHURCH CUSTOMIZATION

Use the website customizer to add a church name below the shared identity. The base logo lettering is outlined. Customized church names remain live text: ask your printer to outline that line before production.

PRINTING AND USE

Print PDFs at actual size on US Letter. SVG artwork is scalable with transparent backgrounds. Churches and participants may reproduce these original materials for Foundation Framework activities and local apparel. Do not imply endorsement of unrelated products.
